- Operation Theaters

Diagnostic Services

- Clinical Laboratory and Blood Bank
- Radiology & Imaging
- Cardiac Non-Invasive Investigations
- Pulmonary Investigations

Clinical Laboratory and Blood Bank

KIH Laboratory is equipped with latest analyzers from renowned multinational diagnostic companies. These analyzers are fully automated and connected with sophisticated LIS/HMIS thus ensuring minimum pre-analytical and post-analytical errors. Quality control is the hallmark of KIH. This has been achieved by affiliation with national and international Quality Agencies.
